### FINAL ACTION

Applicant's amendment of 9-6-02 has been considered. Although the amended claims have overcome the rejections of 112/2<sup>nd</sup> paragraph and 102 [based on **Brocks et. al.** and **Vigano et. al.** (US'741)], the proviso in the amended claim 1 has no support in the instant disclosure. Because no terminal disclaimer has been filed, the double patenting rejection remains outstanding.

#### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The proviso in claim 1 lacks description in the instant disclosure in term of a preferred embodiment. There is no guidance to lead one skilled in the art to select the claimed subgenus. **Even a negative limitation requires description, *Ex Parte Grasselli*, 231 USPQ 393.**

***Double Patenting***

2. Claims 1, 6, 10, 11, 14, and 15 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 6, 12, and 20 of copending Application No. 09/360,020; and over claims 1, 3, 4, and 13 of copending Application No. 09/589,476. Although the conflicting claims are not identical, they are not patentably distinct from each other for reasons stated in the previous action.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Claim Objections***

3. Claims 12, 13, and 16-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The references of record do not teach a method of treating cancer using compounds similar to those claimed herein.

4. **Non-elected Subject Matter:** This application contains claims 24-48 are drawn to an invention nonelected with traverse in Paper No. 7. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
